Education

Afeka Academic College of Engineering

Bachelor of Science in Software Engineering

Oct. 2023 – Present

Tel Aviv - Yafo, Israel

Relevant Coursework

- Introduction to Computer Science
- Object - Oriented Programming
- Introduction to System Programming
- Object - Oriented Design
- Data Structures
- Database Systems
- User Interfaces Characterization
- User Interface Development

Projects

E-commerce Management System | *Java, OOP, PostgreSQL, JDBC*

- Developed a console-based e-commerce management system using Java and object-oriented design principles.
- Designed and implemented core business entities including buyers, sellers, products, shopping carts, categories, and order history.
- Integrated PostgreSQL using JDBC to persist and manage users, products, carts, and purchase records.
- Designed a relational database schema with primary keys, foreign keys, and relationships between system entities.
- Applied encapsulation, inheritance, interfaces, and modular class design to improve code organization and maintainability.

Android Matrix Road Game | *Kotlin, Android Studio*

- Developed an Android game using Kotlin as part of an academic mobile development project.
- Implemented a three-lane gameplay system with player movement, randomized obstacles, collision detection, and a lives mechanism.
- Built the game logic using a matrix of Android Views, updating View visibility to represent player and obstacle movement.
- Added countdown flow, vibration feedback, crash handling, game-over screen, and restart functionality to improve user experience.
- Structured the project using Android Studio resources, layouts, drawable assets, and Kotlin activity logic.

Technical Skills

Programming Languages: Java, Python, C, SQL, Kotlin

Technologies: PostgreSQL, JDBC, Android Development

Developer Tools: Git, GitHub, IntelliJ IDEA, Eclipse, Android Studio, CLion, PyCharm, Visual Studio Code, pgAdmin

Core Concepts: Object-Oriented Programming, Object-Oriented Design, Data Structures, Algorithms, Database Design, UI/UX

Additional Experience

Private Tutor

Math, Algebra and Physics

- Tutored students in math, algebra, and physics with a focus on clear explanations and structured problem solving.
- Adapted explanations and practice exercises according to each student's level, pace, and academic needs.
- Helped students strengthen problem-solving skills and build confidence in technical subjects.
